PREFACE

This volume, the thirty-first annual of the *Industrial Arts Index*, is a cumulation of monthly issues published from December 1942, thru November, 1943. During the year there have been added to the list of magazines indexed: *Transactions of the American Society of Mechanical Engineers*; *Air Transport*; *Aviation News*; *Petroleum Refiner*; and *Banking Law Journal*. The last named journal has been indexed beginning with the July number, volume 60, number 7, when it combined with *Bankers Magazine*, indexed for many years. *Aviation News* is indexed beginning from its first number, August 2; and *Air Transport*, likewise from its first number, September.

The following magazines, owing to war conditions, have not been received, but it is hoped that their indexing may be completed later: *Angewandte Chemie*; *Chimie et Industrie*; *Génie Civil*; *Stahl und Eisen*; *Zeitschrift des Vereines Deutscher Ingenieure*; *R.C.A. Review* (suspended publication).

Two periodicals have been dropped from the list. *Transit Journal* discontinued publication with the December 1942 number; *American Photography*, indexed in the *Readers' Guide*, will no longer be indexed in the *Industrial Arts Index*.

The subject listing of books and pamphlets was discontinued last January.
